About Clubs Fore Kids

Clubs Fore Kids is a free, after school program for students ages six to 18 from underprivileged school districts. We work closely with these kids to open the world of physical activity and personal excellence to them in a new and exciting way. Clubs Fore Kids aims to stick with these children throughout their grade school education, encouraging a college oriented mindset. Clubs Fore Kids also grants scholarships and works closely with different colleges to ensure our students can continue their education and love for golf on a collegiate level.

Program Themes

Honesty

Friendship

Well-being

Compassion

Inclusion

Our Program Sessions

* Fall
* Winter

* Spring
* Summer!

Our sessions can be accessed year round for the Winter, Fall, Spring, and Summer programs. The programs are rotated monthly to focus on a new theme and life lesson that can be taught through golf. Our students are placed into age groups (elementary, middle, and high school) where they will learn alongside their peers and mentors.
